

An archivist's job is  
big and broad.

“To appraise, acquire, arrange and describe, preserve, authenticate, and provide access to permanently valuable records.”

Source: Society of American Archivists

**You do all of this with one primary goal—to increase visibility of, and access to, your collection.**

But getting from acquisition, to description, to organization, and ultimately to access and visibility is not always a straightforward road. No matter where you are on this continuum, Atlas Systems can help you find the right path forward – for your collection and your institution.
