Atlas Systems Accessibility Conformance Report

WCAG Edition

(Based on VPAT® Version 2.5)

Name of Product/Version: Atlas Accounts

Report Date: 12/19/2024

Product Description: The Atlas Accounts website is used to register for and manage accounts related to certain Atlas services, such as the Video Training Library.

Contact Information: support@atlas-sys.com

Notes: This is the first VPAT created for the Atlas Accounts website. It evaluates the web page content under the accounts.atlas-sys.com domain and related Sign In page.

Evaluation Methods Used: automated WCAG accessibility validators (WAVE browser plugin), screen readers (NVDA, VoiceOver), contrast ratio calculators from WebAIM, keyboard

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
[Web Content Accessibility Guidelines 2.0](#)	Level A (Yes)
	Level AA (Yes)
	Level AAA (No)
[Web Content Accessibility Guidelines 2.1](#)	Level A (Yes)
	Level AA (Yes)
	Level AAA (No)
[Web Content Accessibility Guidelines 2.2](#)	Level A (No)
	Level AA (No)
	Level AAA (No)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports**: Some functionality of the product does not meet the criterion.
- **Does Not Support**: The majority of product functionality does not meet the criterion.
- **Not Applicable**: The criterion is not relevant to the product.
- **Not Evaluated**: The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.x Report

Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).

Table 1: Success Criteria, Level A

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A)	Partially Supports	• On the Home page, inside the sidebar labelled "Links", the associated hyperlinks each have an icon intended to communicate unique information about these links compared to others. However, these icons have no text alternative.
1.2.1 Audio-only and Video-only (Prerecorded) (Level A)	Not Applicable	Atlas Accounts does not use pre-recorded audio or pre-recorded video media.
1.2.2 Captions (Prerecorded) (Level A)	Not Applicable	Atlas Accounts does not use pre-recorded audio or pre-recorded video media.
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A)	Not Applicable	Atlas Accounts does not use pre-recorded audio or pre-recorded video media.
1.3.1 Info and Relationships (Level A)	Partially Supports	• For pages with form fields, validation error messages shown beneath fields in error are not programmatically linked to their respective field. • On pages detailing individual "groups", the Name field has validation, but there is no programmatic indication of an error. The only indication is the border color change of the input. • In the "Invite New Member" dialog on individual group pages, the Email Address

Criteria	Conformance Level	Remarks and Explanations
		field has validation, but there is no programmatic indication of an error. The only indication is the border color change of the input. • The mobile navigation toggle button is non-functional on the Sign In, Sign Out, Forgot Password, and Registration page, but is still focusable with keyboard, hover-able with a mouse, and not programmatically communicated as disabled in code. • On the Registration page, none of the form fields have correctly linked label elements. • On the Registration page, the question mark icon on the Password field provides useful information via a tooltip, but that is not programmatically linked to the field. • Table titles are not programmatically linked to each table. • On the Home page, the sidebar labelled "Links" does not communicate semantics that accurately represent the component. It should at minimum present the "Links" text as a header and remove the heading role from the list of associated links, as they do not serve that purpose. • On the Profile page, the Organization and Phone Number fields do not have correctly linked label elements. • On the Profile page, for the Email field, the descriptive text beneath the field is not programmatically linked to the field.

Criteria	Conformance Level	Remarks and Explanations
		• On pages detailing individual "groups", the Users and Subscriptions components are clearly data tables, but are not marked up to indicate these semantics. • On pages detailing individual "groups", in the "Invite New Member" dialog, the Email Address and Access Level fields do not have correctly linked label elements. • On pages detailing individual "groups", The "Confirm User Removal" dialog has an incorrectly linked title (uses the wrong one). • On the About page, the dropdown list associated with the "View Libraries" button is hidden from screen readers completely.
1.3.2 Meaningful Sequence (Level A)	Supports	Atlas Accounts provides logical reading sequences for content.
1.3.3 Sensory Characteristics (Level A)	Supports	Atlas Accounts provides instructions for operating content that does not solely rely on sensory characteristics.
1.4.1 Use of Color (Level A)	Partially Supports	• When clicking on a dropdown link in the navbar, the background color changes for the selected dropdown but there is no secondary non-color indicator. • The focus indicator for the "Groups" dropdown link in the nav bar uses color only.
1.4.2 Audio Control (Level A)	Not Applicable	Atlas Accounts does not use automatic audio media.

Criteria	Conformance Level	Remarks and Explanations
2.1.1 Keyboard (Level A)	Partially Supports	• On individual group pages, there is no keyboard accessible way to remove users from a group or invite new members in a group. The relevant UI components on the group page are not focusable, even though they are functional for mouse users. No alternative is presented.
2.1.2 No Keyboard Trap (Level A)	Supports	Atlas Accounts does not trap keyboard focus.
2.1.4 Character Key Shortcuts (Level A 2.1 and 2.2)	Supports	Atlas Accounts satisfies character key restraints.
2.2.1 Timing Adjustable (Level A)	Not Applicable	Atlas Accounts does not use time limits.
2.2.2 Pause, Stop, Hide (Level A)	Supports	Atlas Accounts satisfies these constraints.
2.3.1 Three Flashes or Below Threshold (Level A)	Supports	Atlas Accounts interfaces do not flicker.
2.4.1 Bypass Blocks (Level A)	Does Not Support	• There is no skip link present to allow skipping of the navigation bar.
2.4.2 Page Titled (Level A)	Supports	Atlas Accounts web pages use descriptive page titles to describe topic or purpose.
2.4.3 Focus Order (Level A)	Supports	Atlas Accounts web pages provide a logical focus order.
2.4.4 Link Purpose (In Context) (Level A)	Supports	In Atlas Accounts web pages, the purpose of all links included in the web interface can be determined

Criteria	Conformance Level	Remarks and Explanations
		within the requirements of the criterion.
2.5.1 Pointer Gestures (Level A 2.1 and 2.2)	Supports	Atlas Accounts satisfies pointer gesture constraints.
2.5.2 Pointer Cancellation (Level A 2.1 and 2.2)	Supports	Atlas Accounts satisfies pointer cancellation constraints.
2.5.3 Label in Name (Level A 2.1 and 2.2)	Supports	In Atlas Accounts web pages, for components containing visual label text, the same text is included in the accessible name.
2.5.4 Motion Actuation (Level A 2.1 and 2.2)	Not Applicable	Atlas Accounts does not have functionality operated by device motion or user motion.
3.1.1 Language of Page (Level A)	Does Not Support	• None of the web pages have a "lang" attribute on the HTML element.
3.2.1 On Focus (Level A)	Supports	In Atlas Accounts web pages, changing or moving focus does not initiate a change in context.
3.2.2 On Input (Level A)	Supports	In Atlas Accounts web pages, changing the setting of user interface components does not automatically cause a change of context.
3.3.1 Error Identification (Level A)	Partially Supports	• On pages detailing individual "groups", the Name field has validation, but there is no indication or explanation of an error besides the border color change of the input. • In the "Invite New Member" dialog on individual group pages, the Email Address

Criteria	Conformance Level	Remarks and Explanations
		field has validation, but there is no indication or explanation of an error besides the border color change of the input.
3.3.2 Labels or Instructions (Level A)	Supports	In Atlas Accounts web pages, content that requires user input has corresponding labels or instructions.

4.1.1 Parsing (Level A)
     WCAG 2.0 and 2.1 – Always answer 'Supports'
     WCAG 2.2 (obsolete and removed) - Does not apply
	Supports	For WCAG 2.0 and 2.1, the September 2023 errata update indicates this criterion is always supported. See the WCAG 2.0 Editorial Errata and the WCAG 2.1 Editorial Errata.

4.1.2 Name, Role, Value (Level A)	Partially Supports	• On the Registration page, none of the form fields have correctly linked label elements and there is no other source of accessible name. • The mobile navigation toggle button is functional after signing in, but does not have the semantics necessary to communicate the expand/collapse behavior of the nav menu. • The "Groups" dropdown in the nav bar does not have any programmed semantics necessary to communicate the dropdown behavior. • On the About page, the "View Libraries" button does not correctly update its aria-expanded attribute, so semantics are not correctly communicated to match the state.

Table 2: Success Criteria, Level AA

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA)	Not Applicable	Atlas Accounts does not host live audio/video content.
1.2.5 Audio Description (Prerecorded) (Level AA)	Not Applicable	Atlas Accounts does not use prerecorded video content in synchronized media.
1.3.4 Orientation (Level AA 2.1 and 2.2)	Supports	Atlas Accounts can be viewed and operated in multiple display orientations, including portrait and landscape mode.
1.3.5 Identify Input Purpose (Level AA 2.1 and 2.2)	Does Not Support	• Neither the Registration page, nor the Profile page have the code necessary to communicate input purpose semantics.
1.4.3 Contrast (Minimum) (Level AA)	Does Not Support	• The green alert messages and red alert messages (as seen on the Sign In page) are on a gradient background and do not pass text contrast. • The default hyperlink text color of blue does not pass contrast with the white page background, the navigation bar gradient, or some page heading backgrounds. • On most pages, the text of the "Atlas Accounts" link in the nav bar is grey and does not pass contrast with the gradient nav bar background. • The grey text of the primary navigation links in the nav bar does not pass contrast with the

Criteria	Conformance Level	Remarks and Explanations
		nav bar background.
		- On the Sign In page, the light grey small text does not pass contrast with the page heading background.
		- On the Sign In and Sign Out pages, the light grey text color of the footer does not pass contrast with the white page background.
		- The primary button theme has white text on a blue gradient background, which does not pass contrast.
		- The light grey text used in tables throughout the web site to indicate lack of data does not pass contrast with the white page background.
		- Many page headings and table title text is blue, but does not pass contrast with its blue gradient background.
		- On the Home page, in the sidebar labelled "Links", the white text labelled "Links" does not pass contrast with its blue gradient background.
1.4.4 Resize text (Level AA)	Partially Supports	- On the Forgot Password page, the "Sign In" link can overflow its container under reflow and text resizing constraints.
		- On the Registration page, the "Already Have an Account" link can overflow its container under reflow and text resizing constraints.
		- The mobile versions of many tables lose most of the column header information, such as the Users and Subscriptions tables on individual

Criteria	Conformance Level	Remarks and Explanations
		group pages and the Invoices table on the Billing page.
1.4.5 Images of Text (Level AA)	Supports	Atlas Accounts does not use images of text.
1.4.10 Reflow (Level AA 2.1 and 2.2)	Partially Supports	- On the Forgot Password page, the "Sign In" link can overflow its container under reflow and text resizing constraints. - On the Registration page, the "Already Have an Account" link can overflow its container under reflow and text resizing constraints. - The mobile versions of many tables lose most of the column header information, such as the Users and Subscriptions tables on individual group pages and the Invoices table on the Billing page.
1.4.11 Non-text Contrast (Level AA 2.1 and 2.2)	Partially Supports	- The custom focus indicator for checkboxes is inside the checkbox and doesn't pass contrast in some browsers. - The default form field border color does not pass contrast with the white page background necessary for identification. - The mobile navigation toggle button is functional after signing in, but does not pass contrast with the nav bar background.
1.4.12 Text Spacing (Level AA 2.1 and 2.2)	Supports	Atlas Accounts satisfies text spacing constraints.
1.4.13 Content on Hover or Focus (Level AA 2.1 and 2.2)	Supports	Atlas Accounts satisfies hover and focus constraints.

Criteria	Conformance Level	Remarks and Explanations
2.4.5 Multiple Ways (Level AA)	Does Not Support	• The nav bar is the only means of navigating to different sections of the website.
2.4.6 Headings and Labels (Level AA)	Supports	Headings and labels provided in the Atlas Accounts web pages describe the topic or purpose of their associated content.
2.4.7 Focus Visible (Level AA)	Partially Supports	• There is no focus indicator for the "Groups" dropdown link in the nav bar when the dropdown menu is open.
3.1.2 Language of Parts (Level AA)	Supports	In the Atlas Accounts web pages, text content uses the default human language of the web page as specified in the lang attribute of the html element on each rendered web page.
3.2.3 Consistent Navigation (Level AA)	Supports	In the Atlas Accounts web pages, the navigation bar is consistently presented throughout the website.
3.2.4 Consistent Identification (Level AA)	Supports	Atlas Accounts uses specific labels and icons consistently throughout the web pages to identify functional components that appear repeatedly.
3.3.3 Error Suggestion (Level AA)	Partially Supports	• On pages detailing individual "groups", the Name field has validation, but there is no indication or explanation of an error besides the border color change of the input. • In the "Invite New Member" dialog on individual "group" pages, the Email Address field has validation, but there is no indication

Criteria	Conformance Level	Remarks and Explanations
		or explanation of an error besides the border color change of the input.
3.3.4 Error Prevention (Legal, Financial, Data) (Level AA)	Supports	Dialogs and form validation are provided to assist the user when submitting data or initiating an action against data.
4.1.3 Status Messages (Level AA 2.1 and 2.2)	Partially Supports	• For pages with form fields, some validation error messages shown beneath fields change dynamically but status message semantics are not present to communicate these changes.

Table 3: Success Criteria, Level AAA

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.2.6 Sign Language (Prerecorded) (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
1.2.7 Extended Audio Description (Prerecorded) (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
1.2.8 Media Alternative (Prerecorded) (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
1.2.9 Audio-only (Live) (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.

Criteria	Conformance Level	Remarks and Explanations
1.3.6 Identify Purpose (Level AAA 2.1 and 2.2)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
1.4.6 Contrast (Enhanced) (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
1.4.7 Low or No Background Audio (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
1.4.8 Visual Presentation (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
1.4.9 Images of Text (No Exception) (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
2.1.3 Keyboard (No Exception) (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
2.2.3 No Timing (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
2.2.4 Interruptions (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
2.2.5 Re-authenticating (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
2.2.6 Timeouts (Level AAA 2.1 and 2.2)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.

Criteria	Conformance Level	Remarks and Explanations
2.3.2 Three Flashes (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
2.3.3 Animation from Interactions (Level AAA 2.1 and 2.2)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
2.4.8 Location (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
2.4.9 Link Purpose (Link Only) (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
2.4.10 Section Headings (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
2.5.5 Target Size (Level AAA 2.1 and 2.2)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
2.5.6 Concurrent Input Mechanisms (Level AAA 2.1 and 2.2)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
3.1.3 Unusual Words (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
3.1.4 Abbreviations (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
3.1.5 Reading Level (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.

Criteria	Conformance Level	Remarks and Explanations
3.1.6 Pronunciation (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
3.2.5 Change on Request (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
3.3.5 Help (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
3.3.6 Error Prevention (All) (Level AAA)	Not Evaluated	The product has not been evaluated against WCAG AAA standard.
