

Resolve your ArchivesSpace Challenges with Atlas Systems

Regardless of your institution's size or prior experience with ArchivesSpace, Atlas Systems can help.

ArchivesSpace is an open source, web application for managing archives information. Atlas Systems is an **ArchivesSpace Registered Service Provider**, committed to providing the help you need—large project or small. Most of our ArchivesSpace users rely on our expertise for hosting and support as well as data conversion and migration.

Hosting & Support

Atlas offers two levels of server hosting—Standard and Enterprise—so you can choose the level that meets your current needs and move up if those needs change. Atlas technical specialists ensure your installation remains secure and current. Atlas software specialists provide unlimited support to answer all your questions.

Data Conversion & Migration

Atlas can analyze and convert your existing archival data from Archon, Archivist's Toolkit, or other formats in order to ingest it into ArchivesSpace. In addition, our specialists can identify and provide data cleanup services to help prevent performance or searching irregularities.

ADDITIONAL SERVICES TO HELP YOU GET THE MOST VALUE FROM ARCHIVSPACE

Consultative Implementation Services

For sites new to ArchivesSpace or those that need additional guidance during implementation, Atlas Systems can provide consulting services to ensure a smooth product rollout.

Consultative Implementation Services include:

- ◆ An implementation schedule designed to match your desired outcomes.
- ◆ Ongoing meetings with your implementation team to evaluate milestone completion and next steps.
- ◆ Guidance and recommended best practices to help you reach your goals.

Video Training Library

Atlas Systems has created a variety of training videos to provide step-by-step details on using the ArchivesSpace software. Supplemented by a growing library of support documentation, the Video Training Library provides a simple, concise program that allows a new user to get up and running quickly on the ArchivesSpace software.

Custom Consulting

Atlas can help you optimize your use of ArchivesSpace as well as take on your custom project work. Just ask!
